#### DIAPHRAGM VACUUM PUMP- 100 Series

Labocon Diaphragm Vacuum Pump-100 Series are highly efficient oil free displacement vacuum pump where reciprocating action of valve and diaphragm helps pumping.

## **Application:**

Widely applicable in areas which require dry oil free vacuum pumping of non-contaminated gases, these include laboratories, Analytics, Chemical Industries etc.

# **Specifications:**

| Model                      | LDVP-101                 | LDVP-102    | LDVP-103    | LDVP-104    | LDVP-105    | LDVP-106    |  |  |  |

#### **ROTARY VANE VACUUM PUMP- 100 Series**

Rotary Vane Vacuum Pump-100 Series from Labocon are high vacuum oil sealed rotary vacuum displacement pumps mounted with gas ballast valve, reducing loss of lubrication.

### **Application:**

Widely applicable in Vacuum drying and degassing applications where diaphragm pumps cannot provide sufficient vacuum. These applications include, freeze drying, centrifugal concentration, low-temperature evaporations of high boiling point solvents, molecular distillations, etc.

# **Specifications:**
